

**A Special Calling: Honored to Help  
In Cases of Bilateral Club Feet**

Yvan and his host mother Holly C. with LLP  
volunteer pilot Bill K. OH

LLP is flying a number of missions to transport children with Bilateral Club Feet to a specialist at the University of Iowa, Iowa City, IA.

Children's Medical Missions West, Lima, OH, transported Yvan from Africa's Ivory Coast for donated care in the US.

As an example of these missions, Yvan and his host mother, Holly C., recently were flown from Ohio by LLP volunteer pilot Bill K., OH, who transported them to Champaign, IL, where they were picked up by LLP pilot Rudi M., IL, who flew them the 2nd leg of the flight to the specialist at the University of Iowa.

"It takes a community of good people to raise a child and in Yvan's case, we've been fortunate to have two countries and many kind hearted people to make it all happen," noted Holly. "Thank goodness, there are caring and generous people willing to fly us to Iowa and back. God bless you!"

**Making a difference!  
Can you help?**

What a difference these specialized treatments make for children with Bilateral Club Feet!

LifeLine Pilots is honored to assist-and we need your help.

Missions are made possible by your generous contributions. We are so thankful for donations-large or small.

Here's what it takes:

- \$ 300. - 1 Mission
- \$1,500. - 5 Missions
- \$3,000. - 10 Missions

We invite you to join us! You may donate at [www.LifeLinePilots.org](http://www.LifeLinePilots.org) or contact Chairman Robert Benda at [Chairman@LifeLinePilots.org](mailto:Chairman@LifeLinePilots.org)

Thank you so much!
