

## Thank You to the volunteer pilots that assist LLP & Other VPOs!

Do you know that LifeLine Pilots partners with other Volunteer Pilot Organizations (VPOs)?

For many years, LLP has teamed up with Angel Flight East, Angel Flight Soars, and other VPOs.

Another example is that of volunteer pilot Pastor Ric S., whose Adventist World Aviation organization flies missionaries to remote villages in many areas of the world.

Yong and Dennis A. with volunteer pilot Pastor Ric S

Pastor Ric's first mission for LLP was in transporting Yong and her husband, Dennis, from Iowa to Cancer Treatment Centers in Zion, IL for Yong's treatments.

He is one of several examples of pilots who work with other VPOs, yet also volunteer to assist with LLP missions.

LLP returns the favor! We are more than happy to work alongside other VPOs! We don't care who gets the credit; we simply want to be able to transport people in need-at no charge and in time-to medical centers for diagnosis, organ transplants, or treatments.

Would you like to work with us in this amazing charity? Pilots tell us it doesn't just make a difference in the patient's life-but also in their lives!

## Come fly with us!

If you're an FAA certified pilot who likes to give back, we invite you to consider LLP.

Or perhaps you're looking for an excuse to get into your plane more often-and help others at the same time?

Our number of missions is increasing, and we need more volunteer pilots.

Peyton Metzel, Ph.D., has been flying with LLP since 1987 and serves on the board of LifeLine Pilots. That long-term service says a lot about the joy experienced by volunteer pilots!
